

Bishopston Crafts

Profile: Carrie Browne of Carrie's Cake Designs

I'd like to think I could have a go at creating almost anything out of cake! A replica iPad, a Halloween ghost, a Gruffalo and even an orchid are some of the more unusual cake design requests I've had in recent years. I love coming up with new ideas and creating something beautiful or fun to celebrate a special occasion.

Last September I even recreated Bristol Zoo's Gorilla Island on a cake after they got in touch asking me to bake something to celebrate their baby gorilla's first birthday!

I have also made quite a few wedding cakes, which is something I really

enjoy as I love helping the bride come up with design ideas and creating cakes that match the colour schemes and the bride's dress. Seeing it all come together on the big day is fantastic.

I work full time in education, but I've recently qualified with a City & Guilds in sugar modelling and I'd love to be able to make cakes full time eventually.

Visit www.carriescakedesign.com or find Carrie's Cake Design on Facebook.
